Travis Heffley

v

Federal Bureau of Prisons

I am a federal inmate at FCI Otisville. The defendants are:

Defendant 1 FCI Otisville

I have been forcefully medicated at all the institutions listed as defendants. This has gone on for several years without my knowledge. When I became aware I made multiple attempts to make the staff stop. I have filed informal resolutions and administrative remedies both with the institution staff and at the regional office in Philadelphia. All of the responses that I received stated I am not being forcefully medicated. The only way that I can prove this is to subpoena the insurance company. I also have made complaints to the regional office in Philadelphia that medical records have been falsified. I was not treated for conditions that I did have and instead was given medications for problems that I did not have, intentionally. I am asking that this practice of forcefully medicating me be stopped. Also I want 100 million dollars for the mental anguish I have gone through trying to figure out what is wrong with me. And for the unknown long term side effects that will affect me. I request a jury trial. Travis Heffley 17225097 47 Haffy 7-11-17

I believe that my basic human rights have been violated I am filing this civil complaint because at some point in time while I was at USP Marion, surgical procedures were preformed on me without my knowledge. My penis and the areas around it were altered without my knowledge and permission. These surgeries have caused me serious problems. These problems include numbness, discoloration, urination problems including having to strain to pass urine. Also I have experienced problems maintaining an erection for longer than a few seconds. Also the ability to ejaculate has been affected. I have experienced severe pain in the areas around my penis because the blood flow has been blocked. Also the size <sup>has been reduced</sup> It has taken me several years to fully understand what was done to me. Since I was not aware at the exact time these things were done I could not file any informal resolutions. The stress that I have undergone because of this is indescribable. The pain and stress over the years at all of the institutions where I was housed, I feel, they are all responsible since they were knowledgeable about the things that were done and did nothing to correct the problems. I have tried informal resolutions. Since I have been here at FCI Otisville I have gone to the medical staff and asked for help to fix these problems. Their response has been they do not know how to fix these problems. So what I have requested them to do and what I request now is these problems be corrected and 100 million dollars for pain and suffering and mental anguish. I also request a jury trial.
